

# Companies choose Optera for our **One Team** approach

## **Seamless experience**

Optera's unified team provides end-to-end support, simplifying your climate journey.

## **Real results**

We empower you to prioritize impactful climate action, not get bogged down in technicalities.

## **No hidden fees**

Unlike other vendors, implementation, meetings, and 1:1 support are always included.

# Optera's **One Team** approach

**One team for your end-to-end carbon management and accounting needs.**

We become an extension of your team, providing year-round advisory & support.

# Reducing the complexity of carbon accounting

Full-service implementation that sets you up for success

---

Technical support & strategic consulting, all in one place

---

Save money and make it easier to manage your budget

# How does all of this differ from what you get with other vendors?

We prioritize transparent, straightforward pricing—bundling software, expert implementation, and strategic consulting.

This frees up your time and budget to focus on what truly matters—driving decarbonization forward and making an impact on broader business strategy.
